Opening Speech

Who We Are

I am sincerely glad to welcome you on behalf of our organisation, AL JANNAH GROUP MALAYSIA. I hope that this corporate profile of our organization will provide important and interesting information for you.

Our company involve in various areas including supplying, manufacturing, production, marketing, networking, distribution and exportation. we were established in 2008 under the company Al Jannah Biotech Sdn. Bhd. to manufacture our product. Our products are developed by the Research & Development (R&D) team from a local university (UTM) using the latest nano technology to formulate better beverages in benefit and taste. We have 2 main products which are coffee and tea beverages. All our products are specially mixed with Mahkota Dewa fruit extract and selected natural herbs to produce a very unique taste and provide natural flavour freshness. With the certification of HALAL on our products, we believe now it has a wide range of consumers and markets.

The rise of internet marketing on booth global and national basis is, in our view, a demonstration of continuation potency of the evolution on retailing. The direct selling concept of retailing by independent sales people is ideally suited to that constantly evolving and changing process. That is why we move forward a marketing division into new group company established in 2010 as Al jannah Global Marketing Sdn. Bhd. (known as AJGM). AJGM is a marketing company that manage the sales forces and operating based on online networking and direct selling concept.

The demand is increasing constantly and we need to the supply chain so that we can cater to both manufacturing and marketing. We have a new division in the company established in 2013 known as Syaz Family Enterprise to manage the supply of material.

Under the expansion plan, we have grown to our neighbouring country, Indonesia we have established Pt. Al Jannah Global Marketing in 2014 as overseas head office. Indonesia is under development process and still improving and we try to cover more region as demands are increasing . We are also actively involve in exporting our product to other Asian countries like Singapore, Taiwan, China, Cambodiaand some in Middle East.

We appreciate the support from government agencies such as SME Bank in providing factory facilities and finance. We are also selected under TERAJU and TERAS, a government corporation in helping potential and fast moving companies. They finance us in building our new factory that is enough for us to cover a larger market demand.

We have succeeded in creating many people with good income through our entrepreneurs program. The hard work and continuous effort from both entrepreneurs and company surely will make dream come true.

Datuk Zulkefli Bin Hj. Md Isa
Executive Chairman of Al Jannah Group Malaysia.

About Us

Al Jannah Global Marketing Sdn Bhd. (AJGM) is a fully owned Bumiputera company established in 2008. AJGM focuses on manufacturing and marketing products under the brand AL JANNAH by mixing our products with the herb Phaleria Macrocarpa or better known as “Mahkota Dewa”. AJGM’s most prominent product is the Pre-Mixed Mahkota Dewa Coffee and Tea. AJGM is proud states that all of its products are processed using nano technology as it is more environmental friendly and does not affect health.

AJGM is formed with the experience and expertise of gained from various business ventures and the full support from their distributors. Following the 1 Malaysia concept. AJGM has welcomed and gathered all distributors, irrespective of race and religion, to be a part and parcel of the company. It is because of this AJGM is able to expand outside of Malaysia, branching out into other neighbouring countries such as Indonesia, China, Taiwan and more. AJGM's business flourishes greatly in Indonesia and now in the midst of exploring the Middle East market.

AJGM is the brainchild of four endeavouring Malaysian entrepreneurs who have spent more than 5 years in the pre-mixed beverages industry. They complement their varied backgrounds ranging from finance, operations, human capital and information technology. Together they work towards a single goal, to support the country's economic growth, to provide good quality products at a reasonable price and to raise this organisation into a notable company internationally.

About Us

Al Jannah Biotech Sdn. Bhd. was established in 2008, with the vision of crafting unique beverages with high quality premium herbs. Our products are developed by the Research & Development (R&D) from local university using the latest technology to formulate better beverages in benefit and taste. We have 2 main product which are coffee and tea. All our products are specially mixed with Mahkota Dewa fruit extract and selected herbs to produce a very unique taste and provide natural flavour freshness.

The factory is supported by SME Bank (one of government institution) and has been in operation since the year 2010. The company's products also have received recognition and approval from JAKIM Halal certification and classification as beverage products from the Ministry of Health Malaysia (MOH).

AJGM is a founder of leading herbs product "Al Jannah Mahkota Dewa Coffee". Our products have been sold over many countries throughout South-East Asia.

Vision

- To become a successful bumiputera company in manufacturing and marketing field.
- Piloting the economic growth and also creating a healthy community.
- To being a multinational company with a global market.

Mission

- To create more proactive entrepreneurs to enhance household income.
- To create satisfaction and better quality of coffee and tea taste.
- To help the young generation grow a successful business.
- To reduce the unemployment rate by involving them into AJGM business.

Corporate Objective

- Our corporate objective is to produce high quality herb products with moderate pricing.
- Providing an excellent after sale services for our clients.

Premium Herbs Selection

Coffee Arabica plant is a delicate tree. It requires plenty of care, a cool, tropical climate, and moist, rich soil to thrive. The tree usually prefers an altitude of 600 to 2000 meters. It is vulnerable to cold weather and to many pests. Coffee Arabica is native to the southwestern highlands of Ethiopia, the Boma Plateau in southeastern Sudan and possibly Mount Marsabit in Northern Kenya.

Arabica coffee is considered superior to Robusta Coffee for several reasons. It has a much more delicate, rounded flavour than Robusta and many other varieties of coffee. Arabica coffee beans can generally be described as sweet and soft, with notes of berries, other fruits and sugar. Some are sharp and tangy, while some have a distinctive blueberry note after roasting, and some are floral, light and fragrant.

Arabica coffee is generally much more expensive than Robusta coffee because it is harder and costlier to grow, it produces a lower yield and it is in higher demand. Many of the world's more expensive coffee blends are produced with only Arabica blends, while cheaper coffee blends tend to contain more Robusta. Whereas most specialty coffees will be Arabica only, Robusta is more likely to be found in instant coffees.

Premium Herbs Selection

Mahkota Dewa (Phaleria Macrocarpa) tree comes from virgin forests in Papua New Guinea or Irian Jaya and if the soil fertile, its height can be up to 5 meters. Red colored fruit such as red apples and fruiting throughout the year, if not disturbed by pollution and human activities. Mahkota Dewa properties have been used for centuries as a secret in palace of Sultanate of Java Island. Since well known, the Mahkota Dewa until now widely used in medicine as alternative treatment of various diseases in Indonesia in particular.

ALKALOID : Functions as a detoxification that can neutralize the poisons in the body.

SAPONIN : A source of anti bacterial and anti virus, boost the immune system, enhance the body's immune system and control the sugar in the blood.

FLAVANOID : Improve blood circulation through the body and prevent clogging in the blood vessel, containing anti inflammatory, function as anti oxidants, help reduce the pain if there is bleeding or swelling.

POLIFENOL : Function as anti histamine (anti allergy)

Al Jannah Global labur RM20 juta

ZULKIFLI (kiri) bersama isterinya yang juga Pengarah Urusan Al Jannah Global, Datin Sabariah Atan menunjukkan produk keluaran syarikat itu di Johor Bahru baru-baru ini.

"Menurutnya, pembinaan kilang itu sebagai persiapan Al Jannah Global menembusi pasaran luar negara seperti di Indonesia, China, Taiwan, Kemboja serta meninjau pasaran di Timur Tengah.

"Kilang sedia ada tidak mampu menampung permintaan pas-

uan jualan syarikat meningkat kepada RM165 juta pada tahun berkenaan sebelum berjaya mencatat RM19 juta (2008), RM22 juta (2012), RM35 juta dengan RM10 juta bagi pasaran dalam negara manakala RM3 juta lagi pasaran di Indonesia," katanya.

Sementara itu, Zulkifli memerlukan sebaiknya segera menjalin kerjasama dengan pekebun-pekebun kecil yang bermindat untuk mengusahakan tanaman mahkota dewa sekali gus menjadikan hasil tanaman itu kepada syarikat terbabit.

"Setakat ini, sudah ada dua pekebun kecil yang menjadi pembekal kepada Al Jannah Global dan kita menyasarkan sekurang-kurangnya 11 lagi pekebun kecil untuk tujuan tersebut," ujar beliau.
